TITLE

(X6) DATE

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (see instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

	<p>Administrator indicated restraints were not to be used for fall prevention.</p> <p>2. On 7/24/12 at 3:00 P.M., the Director of Nursing provided the current facility policy on "Physical restraints," dated 3/10. The policy included: "...Restraint use will be considered only after less restrictive measures have failed, and the interdisciplinary team determines that they are needed to treat resident(s) medical symptoms. Definition: A physical restraint is defined as any manual method or physical or mechanical device, material or equipment attached or adjacent to the resident's body that the individual cannot remove easily which restricts freedom of movement or normal access to one's body. Physical restraints include but are limited to [sic]:...hand mitts...Using devices in conjunction with a chair, such as...belts, that the resident can not remove easily, that prevents a resident from rising...Procedure: 1. A physical restraint assessment will be completed prior to the initiation of a restraint...3. All members of the interdisciplinary team will be involved in the decision making process for use of physical restraints. 4. The resident's physician will be consulted to discuss the results of the assessment. 5. A physician's order will be obtained and will include the type, duration, frequency, and the medical condition or symptom(s)</p>
